VISION:

- Positioning North America as the World Leader in Rapid Response Manufacturing.
- Establish The Rio South Texas Region as a major North American logistics and distribution hub (3rd Coast) with global access through Mexico ports.

ULTIMATE GOALS:

- Raise the standard of living by increasing and sustaining the total number of high skills, high wage manufacturing jobs from 17,428 to at least 25,000 positions by 2017.
- Create a world-class manufacturing workforce with skills to meet the demands of a complex manufacturing workplace.

The NAAMREI network consists of three major alliances. To promote integration; the work of each alliance corresponds to a “Strategic Goal” in the overall WIRED Project Implementation Plan:

- Goal 1) North American Technology and Innovation Alliance (NATIA)
- Goal 2) Rio South Texas Manufacturing College Alliance (RSTMCA)
- Goal 3) T-STEM Alliance (T-STEM)
